COLLABORATIONS

At IFIM Law school we want to provide our students avenues that are not just restricted to the corridors of this college. We want to give our students options to pursue their passions beyond their classrooms. Our collaborations with other entities are entered into keeping in mind the industry requirements and the academic needs of the students.

We have entered into a collaboration with the District Legal Services Authority. We conduct legal aid camps in association with DLSA. Legal aid is an integral part of the students learning. During legal aid students don the caps of being advocates and provide free legal services to the underprivileged and marginalised communities. This activity is an integral part of the IFIM philosophy of creating socially aware citizens of the country.

Our collaboration with National Law School of India University is a great platform for our students to meet with their peers, have access to the NLSIU infrastructure and conduct activities of great social and legal relevance on a regular basis in partnership with NLSIU. Annually we conduct at least one event in association with NLSIU. These collaborations broaden the horizons of our students and allow them to work in different atmospheres.

STUDENT TESTIMONIALS

Anshu Sharma,
LL.B Student, Batch 2019

Being a BA Political Science Graduate, opting Law as a career was a tough decision, but after joining IFIM Law School, I think I have made the best decision to opt law. IFIM Law School is more than just a college imparting academic knowledge. The college is training us to be lawyers from day one. Professionalism is the key principle of IFIM Law School and that is impressive. The various research centers in the College are helping us increase our knowledge and contribute our part in the progress of the society.

Nazneen Binu Bashir
BBA., LL.B Student, Batch 2019

At first, as it is natural, when you choose a college you choose it only after thinking very practically and weighing all the pros and cons. Do I regret my decision? Not at all. Of course, IFIM provides me with everything that I was looking for in a college which includes immense support to the students from the faculty, ample opportunities to explore oneself and our interests, and especially great learning experiences.

Ben Jose,
BBA., LL.B Student, Batch 2019

Joining IFIM has helped me realize how interesting Law as a career. With experienced faculty and interactive teaching methods the subjects have become more of an experience rather than a difficult task. The college is right in the heart of the city and has a compact and cosy environment making everyone feel like family. Being in first year I have been awarded as the 'Best Counsel' in a Debate Competition conducted by the XIME College, Bangalore. The college helps us participate in numerous events giving us enormous exposure to students and boost their self-esteem in the process.

Nadia Shalin,
BBA., LL.B Student, Batch -2019

My journey with IFIM Law school, so far helped me to have a healthy balance of academics and other social activities. The best part is IFIM Law School planned a trip to Vijaya Bhoomi University, Karjat. I, myself had the chance to take part in the Annual Maria Philip Debate competition, conducted by XIME Bangalore, and even placed first in the regional round. This was possible with the support of both the faculty and the college debate club. The faculties and the management conducts lot of guest lectures to get adapted to the legal profession and dive right into the profession after graduating from IFIM Law School.
